KEVIN H. WHITE
MAYOR

CITY OF BOSTON
OFFICE OF THE MAYOR
CITY HALL, BOSTON

June 6, 1980

TO THE CITY COUNCIL

COUNCILLORS:

I present herewith, in accordance with the provisions of Section 3 of Chapter 486 of the Acts of 1909, as amended, and the provisions of Chapter 849 of the Acts of 1969, as amended, the operating budget of the City County and Cemetery Department for the fiscal year 1980-81.

The budget I am submitting today reflects a genuine effort to address the problems which confront this city.

It is a realistic budget, one which aims at maintaining the high level of city services while seeking to keep costs at a reasonable level.

This budget was compiled in the face of inflation which has averaged 14.7 percent, and at times has soared to almost 20 percent. It was prepared at a time when energy costs---the price of fuel for city police cars and fire trucks, the heat for schools, and the lights for the hospital---have climbed a steep 34 percent.

And, it was written to accommodate \$32 million in salary increases for uniformed and civilian employees which resulted from collective bargaining agreements and binding arbitration.

This budget also reflects the realities of this urban government, and the end of the customary deficit operating budgets. These are firm, steady budgets which reflect the actual needs of city departments at full service, and the department heads will be held to these budgets.

New programs in this budget such as the BCAD and the Office of Intergovernmental Relations are created to help fulfill what I believe to be crucial issues on the city's agenda for the next fiscal year: racial harmony, jobs development especially for Bostonians, and economic development for the neighborhoods as well as the downtown area.

Relevant budgets for those areas have increased, but the increased city budget as a whole will not mean an increase in the number of employees over this year.

The recommended appropriation for this year is \$380,319,355, a 16 percent over last year's request. That is an increase of \$58,745,077.

The County budget has increased by \$1,840,000 from \$13,227,000 in 1979-80 to \$15,034,000 in 1980-81.

This budget is the product of long hours of complete study by dedicated public servants. It is a good faith effort to govern with economy as well as compassion.

It is my sincere hope that the budget can be considered carefully, deliberated fully, judged fairly, and passed expeditiously.

In this 350th year of the city of Boston, it is my fervent belief that strong men and women of differing perspectives make for a robust public debate, and a strong, vibrant government. We owe no less to this city in her Jubilee year.

Sincerely,

A handwritten signature in cursive script that reads "Kevin H. White".

OFFICE OF PUBLIC SERVICE	GENERAL	1-01-18
DEPARTMENT GOALS	EXPLANATION OF CHANGE IN BUDGET	
The Little City Hall Program accomplishes several inter-related objectives. It contributes to the improvement of public services by providing an effective channel for citizens to communicate their needs and problems to the appropriate public officials and by increasing the ability of local government to respond in a coordinated and timely fashion and furnish an informal forum for complaints and grievances. Little City Halls make information about government programs and services available to residents, enabling them to make more effective use of such programs and services. They expand opportunities for meaningful community access to and involvement in the planning and implementation of policy affecting Boston's neighborhoods. Most important, Little City Halls afford a significant opportunity to accomplish the democratic goal of making government closer and more accountable to the citizens.	<p>The increase in personnel service is full funding of all current positions under the realigned system of Little City Halls. 1,040,000</p> <p>The increase in contractual services is because of required renovations to existing Little City Halls, expansion of the work study program, Xerox, custodial services, printing and advertising of public meetings. 269,500</p> <p>Increase in office furniture is a result of the need to replace a lot of furniture in many of the Little City Halls. 25,000</p> <p>Miscellaneous changes in other non-personnel accounts.</p>

DEPARTMENT GOALS			EXPLANATION OF CHANGE IN BUDGET			
1.) To continue the improvement of the City's financial records and reports to provide more timely and meaningful financial information in accordance with generally accepted accounting principles, and to provide records which can be easily audited by independent auditors.			Increase in Personal Services is a result of personnel changes because of an addition of internal auditors to the post audit and field staff as well as job upgradings. <div style="text-align: right;">207,900</div>			
2.) To work with independent auditors to obtain from them, within constraints imposed by law, a "clean opinion" on our statements within three years.			Increase in Contractual Services represents the continued audit by the CPA firm of Coopers & Lybrand as well as consultants fees. <div style="text-align: right;">18,875</div>			
3.) To complete the computerization of the general accounting records.			Decrease in Supplies & Materials <div style="text-align: right;">(4,500)</div>			
4.) To implement an effective internal audit program covering all major departments of the city.			Decrease in Charges & Obligations <div style="text-align: right;">(200)</div>			
5.) To speed up the payment of the City's bills to vendors.			Decrease in Equipment <div style="text-align: right;">(1,250)</div>			
6.) To improve controls and efficiency of the City's payroll system and other accounting and financial procedures.			Net Increase <div style="text-align: right;">220,825</div>

DEPARTMENT ADMINISTRATIVE SERVICES/BUDGET DIVISION				FUND GENERAL REVENUE		ACCOUNT NO. 1-01-44
DEPARTMENT GOALS One of the most important functions of local or national government is the budgeting of the taxpayer's money so as to comply with his wishes in the rendering of essential services. The budget analysts, under the direction of the Supervisor of Budgets examine all Departmental Budget Requests during the year, endeavoring at all times to reduce expenditure without curtailing services. Another important phase of the division's work is the constant surveillance of expenditures of appropriations that have been approved by the Mayor and the City Council not only to control but to determine whether the monies being dispersed are for the purposes for which they were appropriated.				EXPLANATION OF CHANGE IN BUDGET Increase in Personal Services is the result of salary adjustments 213,365 Decrease in Contractual Services is due to the elimination of the YES Program. DEPARTMENT SUMMARY

DEPARTMENT	FUND	ACCOUNT NO.
REGISTRY DIVISION	GENERAL REVENUE	1-01-63
<p>DEPARTMENT GOALS The Registry Division, as the Registry Department, was established in 1849, and has custody of all births, deaths and marriage records, old Church Registers and the original records of those towns now annexed to the City of Boston. These records date back to 1630 and are perhaps the oldest of such heritage records in the Country.</p> <p>The Division is one large office, sectionalized into five units, Births, Marriages, Deaths, Deposition and Clerical, designed to efficiently service the general public demand for certified records plus numerous departments such as, the U. S. Dept. of Justice, the State Department of Vital Statistics, the Passport and Immigration Depts, Social Security Division, Retirement Board, Veterans Services, Welfare Dept., etc. as expeditiously as possible and accomplish the permanent recordation of these records as required by the General Laws of the Commonwealth. The nature of the work of the Division is such that the personnel assigned to the various units are interchangeable and can be used in the different sections as the need arises except in certain specialized positions.</p> <p>The Registry Office is reputed to be one of the cities busiest agencies and services 150,000 persons annually at our facility in the City Hall and processes about 200,000 pieces of mail from all over the world and approximately 2500 pieces of mail from the Mini City Halls. The Division now possesses one of the most complete microfilm libraries of Vital records in the Country, dating back to 1630. This library assists the Division in servicing the demands of the public more efficiently and economically while realizing a revenue of approximately \$265,000.00 yearly.</p>	EXPLANATION OF CHANGE IN BUDGET	
	<p>Increase in Personal Services 10,950</p> <p>Decrease in Contractual Services (1,900)</p> <p>Decrease in Equipment (4,000)</p> <p>Eliminate purchase of new typewriters</p> <p>TOTAL INCREASE 5,050</p>

DEPARTMENT	FUND	ACCOUNT NO.
Boston Retirement Board State-Boston Retirement System	General	1-01-92
<p>DEPARTMENT GOALS The Boston Retirement Board is committed this fiscal year, as in each and every year, to transact the business of the Board in a manner which is consistent with the provisions of Chapter 32, G.L., retirement law. It is the aim of this department to render the best possible service to all members--approximately 45,000 in the aggregate. For example, we are accountable for the processing of all retirement applications and other related forms; the calculation of retirement allowances and pensions; contributory and noncontributory; maintain active membership accounts; counsel and assist members on retirement matters; prepare refunds for payment to members who terminate their employment or process the transfer of their accounts to other systems as the case may be. We compile statistical data for in-house departments and outside agencies. Determine monies due the city and payable by the City in accordance with Section 3 (8) (c) Section 20, and Section 59A, Chapter 32, G.L., reimbursement sections. Carry out the provisions of Section 91A, adjustment of disability pensions. Issue annual financial statement to all our members; prepare annual reports and maintain financial records of the system in accordance with established accounting principles. Make ready monthly retirement payrolls for approximately 12,000 retirees, their widows or other beneficiaries. Manage the blue cross and insurance program of all retirees, their widows or other beneficiaries. And of equal importance and by no means last, the investment of the funds of the system, which are the responsibility of this Board. Prudence and profit are the Board's chief concern in order to safeguard the members' contributions and lessen the City's pension appropriation.</p>	<p>EXPLANATION OF CHANGE IN BUDGET</p> <p><u>Personal Services</u> Net Increase in Personal Service collective bargaining 4,437</p> <p><u>Contractual Services</u> Net Reduction in Transportation costs (535)</p> <p><u>Office Supplies</u> Postage and Election for Board Members Net Increase 5,000</p> <p><u>Current Charges</u> Reduction in water cooler rental (100)</p> <p><u>Equipment</u> Disallowed request for electric typewriters (1,000)</p> <p>Net Increase 7,802</p>

DEPARTMENT GOALS	EXPLANATION OF CHANGE IN BUDGET	
<p>Since 1960, the BRA has been responsible for the work of the old City Planning Board and for the execution of federally-assisted Title I Urban Renewal projects (See Mass. Gen. Laws, Ch. 121A/ch. 652 Acts 1960).</p> <p>With the imminent legislative changes forthcoming from the Federal Government, the increased awareness and involvement of the local neighborhoods in the planning process, and the necessity that the City has sound growth and development the planning activities of the BRA have become increasingly important in the last several years.</p> <p>In order that the City might take advantage of projected resources through State and Federal funding sources, planning activities must be accelerated and become more comprehensive. The planning process of the past that focused on renewal areas and zoning development matters beyond renewal areas is now being replaced by a comprehensive master plan for each neighborhood or planning district of Boston. The overall objective is to provide a planning process which will insure orderly growth and development and serve as a frame of reference from which public action can stimulate private investment.</p>	<p>Personal Services: Increments \$ 512,952</p> <p>Contractual Services : Technical studies for projects 340,500</p> <p>Current Charges: Retirement and Health Insurance 161,650</p>

DEPARTMENT SUMMARY

DEPARTMENT	FUND	ACCOUNT NO.
ZONING COMMISSION	GENERAL REVENUE	1-01-73
DEPARTMENT GOALS	EXPLANATION OF CHANGE IN BUDGET	
<p>The new Zoning Code became effective on December 31, 1964. The Zoning Commission in addition to having the duty of the former Board of Zoning Adjustment, which was simply that of hearing and acting on petitions for boundary or map changes, now has the additional important function of initiating or entertaining petitions for amendments to the Code text. This places the jurisdiction of the Zoning Code substantially in the hands of the Zoning Commission.</p> <p>The goals and duties of the Zoning Commission staff are to prepare maps, plans, and data, and to perform research and other investigatory work for the consideration of the Commission, along with the processing of petitions and the keeping of records. Considerable public relations work is involved both at the counter and by telephone in explaining and interpreting Code regulations.</p>	<p>Increase of \$100 in the 28 account and a decrease of \$100 in the 36 account. Net change is none.</p>

PROGRAM SUMMARY

DEPARTMENT	PROGRAM	FUND	ACCOUNT NO.
PUBLIC FACILITIES	SECURITY	GENERAL REVENUE	1-01-88

PROGRAM GOALS

Protect Public Buildings from vandalisms, arson and theft.

DESCRIPTION OF OPERATIONS

- (1) Management of the JC/80 computer to monitor and control security, heating, ventilating and air conditioning systems in public buildings.
- (2) The Electronic Security Patrol is a mobile security force responsible for checking the condition of Public Buildings after closing hours. Patrols consist of unarmed security guards equipped with two way radios, attack dogs and marked City of Boston vehicles. Security officers are dispatched to various locations in response to alarm conditions which are received on the computer at Security Headquarters at 400 Frontage Road.
- (3) On site guards stationed at various locations (Central Maintenance Facility - Madison Park High). The guards are presently CETA Security Officer Trainees.

PLANS FOR MORE EFFECTIVE SERVICE DELIVERY

- (1) Minimize our reliance on security contractors by expanding the departmental security force. This will give the department greater administrative control over our programs, enable us to screen all personnel hired, and provide a good training program geared to meet the needs of our department.
- (2) Expand security guard service to provide coverage for the Madison Park/O.R.C. complex.
- (3) Expand computer operations to meet the demands of the energy conservation and control program.

(St. 1955 c. 616, sect. 2)</p> <p>The commission holds public hearings on all proposed exterior changes in the district, and may approve or disapprove any such proposal.</p>	<p>Increase in special appropiation is due to the part-time use of an executive secretary \$15,000/year shared equally with the Landmarks Commission. Back Bay Architectural Commission	General Revenue	1-02-37
DEPARTMENT GOALS	EXPLANATION OF CHANGE IN BUDGET	
Established by State legislation (Chapter 625, Acts of 1966, as amended), the Back Bay Architectural Commission is empowered to promote "high design standards for...the Back Bay area and protect the heritage of the City of Boston by preventing the despoliation of a district..." Formal review by the Commission is required on all proposed construction or demolition affecting the exterior design, architectural features, color, texture, or materials of structures in the designated Architectural District. Building, demolition, or design permits may not be issued without the Commission's certificate of design approval.	Increase in number of public hearings in past year (from 10 per month to 24 per month) makes it absolutely necessary to use additional clerical assistance from the BRA. Use of one permanent clerk-typist @\$10,000/yr. shared equally with Beacon Hill Architectural Commission One half or \$5,000 to be reimbursable to BRA as pro rata share.

HOUSING INSPECTION	GENERAL REVENUE	1-02-38
<p>DEPARTMENT GOALS</p> <p>The purpose of the Housing Inspection Department is to Enforce Article II of the State Sanitary Code--Minimum Standards of Fitness for Human Habitation--and all other statutes and ordinances relating to residential dwellings in the City of Boston. The Department receives all complaints of housing violations, makes inspections, issues legal notices to property owners if violations exist, and seek criminal complaints in Boston Housing Court, if necessary.</p> <p>Other goals of the department go beyond this basic service. A neighborhood that has decent housing is generally a stable one. Through our complaint system and code enforcement program, we can identify housing problems that will interfere with neighborhood stability, and then see that they are corrected.</p> <p>It is important to the success of the Department that it work with communities to encourage code compliance rather than just enforce the law indiscriminately. A reasonable code enforcement program that has the cooperation of the neighborhood and offers financial support can contribute to a sound neighborhood. That is why the Housing Inspection Department uses the carrot and stick approach to code enforcement. We identify housing violations and, at the same time, work closely with those City departments which provide assistance in correcting them. Those departments are: The Mayor's Office of Public Service with Little City Halls in each neighborhood, the Housing Improvement Program, the Federally-funded agency which offers financial and technical assistance to homeowners and the Boston Housing Court. This arrangement facilitates an over-all coordinated effort.</p>	EXPLANATION OF CHANGE IN BUDGET

PROGRAM SUMMARY

DEPARTMENT	PROGRAM	FUND	ACCOUNT NO.
Library	#3 Research Library Services	General	1-10-11

PROGRAM GOALS 1. Maintaining and strengthening its reference and research collection, especially in areas of traditional affinity and interest and subjects of contemporary significance and demonstrated needs; 2. Assuring the scholarly and international coverage of the collection with publications from and about other cultures in the world to keep pace with the increasingly more cosmopolitan interests of the community and growing awareness of the richly diverse cultural heritages of the people; 3. Assuming active role in the acquisition and preservation of library related source materials to document the history and culture of the people in the community; 4. Providing more extensive coverage of periodical and serial publications to facilitate research needs and meet current demands in fields such as business, public affairs, energy, and urban and environmental matters; 5. Continuing the programmed growth of the library's extensive microtext collection: newspapers, documents, and primary source materials, particularly those relating to Boston and Massachusetts.

DESCRIPTION OF OPERATIONS

Complexity of modern living in all its myriad facets requires increasingly more advanced knowledge and information; General raising of educational level enables more people to seek and utilize such knowledge and information; Knowledge explosion and proliferation of publication make such information more abundantly available but also more costly, both to assemble and to organize; Widening scope and multiplicity source materials make free public libraries the best and most economical institution to provide needed information and services; Boston Public Library Research Library Services serves as such educational and informa-					

tion resource center for all residents in all walks of life. **COST SUMMARY BY CLASS**

DEPARTMENT GOALS

Fiscal assistance to cities on both the federal and state levels are becoming more scarce. Without such assistance an increased burden of dollars will unfortunately be placed on the taxpayers. There are still many sources of funding available, however, they must be pursued and examined. It is essential that the city have a first-class organization to maximize the flow of state and federal dollars to Boston.

The Office of Intergovernmental Relations will be designed to achieve this goal. As well, this office will help monitor and influence any federal and state legislation or regulations which may financially impact the City of Boston.

DEPARTMENT GOALS

The department's goal is to generate blue-collar job opportunities, to support the business community and to expand the tax base of the City. The development and Industrial Commission has established a job creation goal in the manufacturing sector of 1,000 jobs in Fiscal Year 1981. These private sector jobs will result from either direct project development by DIC (i.e. Economic Development and Industrial Corporation of Boston or through DIC's business assistance programs.

The DIC remains committed towards assisting the established Community Development Corporation (CDCs) in Boston with technical assistance and toward fostering additional economic development programs in the City's neighborhoods.

The DIC major projects will continue to be the Boston Marine Industrial Park, especially in view of the projected expansion due to the recent acquisition of options to the Army Base and the Crosstown Industrial Park expansion of Parcel 2 to Healthco, Inc. will be continued to completion.

The financial division of DIC's business assistance programs will be significantly upgraded. The DIC provides all staffing for the Industrial Development Financing Authority which is expected to issue \$10 million in tax exempt industrial revenue bonds in Fiscal 1981.

This division of DIC has also taken on the industrial portion of the Neighborhood Business Revitalization Program (NBR). Goals for the next 18 months which include FY 81 for the SBA 502, 7A loans, EDA loans and HUD Section 108 exceed \$30 million in loan activity.

DEPARTMENT GOALS The Commission works to improve and promote the natural resources of the city, to protect the watershed resources of the city, to improve air quality, to improve public open-space, to promote environmental awareness, and to improve the coordination of city/state environmental programs.

The Conservation Commission and the Air Pollution Control Commission are now merged at the staff level. This merger has resulted in a broad range of accomplishments on a low budget. The Environmental Affairs Coordinator is the Boston MAPC representative, serves on the Harbor Islands Commission, and staffs the Browne Fund Committee. The Environmental Affairs Coordinator and others have created a private nonprofit organization to implement the BRA "Boston Urban Wilds" report. This Boston Natural Areas Fund has raised more than 250,000 from the private sector and has made the Conservation Commission eligible to receive an estimated 700,000 in 1980 in public grants. This will bring the total of such funds received to 1,100,000.

Conservation Commission activities include administration of the Wetlands Protection Act. This work, which involves 40 public hearings per year, includes regulation and enforcing compliance for activities which affect the more than 2,000 acres of wetlands in the City. The Commission also upgrades and maintains conservation lands throughout the City with the help of a YACC grant for three years at 118,066 per year. The Commission is administering a 15,000 grant from Mass. CZM to find an acceptable solution to the problem of Troy fill in Dorchester Bay.

Air Pollution Control Commission activities include the Parking Freeze, enforcement of smoke emissions standards, and carrying out a share (for 40,000 per year) of the two year grant to the BRA to reconcile industrial growth with the Clean Air Act.

The Commission is the only City department whose charge is dealing with environmental concerns.

It governs by rules and regulations vehicular street traffic in Boston and is responsible for the erection, repair and maintenance of traffic signs, signals, parking meters and other traffic control devices, all with the approval of the State Department of Public Works. In 1980, the department expects to continue the resetting of meter poles and expects to continue a programmed street name signing project. At the request of the Fire Department, new or rebuilt fire stations will have new signals installed to permit fire apparatus exclusively controlled entrance and exit. The department has instituted a program to change all crosswalk markings to a "zebra" type over the next few years. This type of marking has proved more effective than the previous type. The department is also working closely with the Mass. Department of Public Works and the Federal Highway Administration on various signal and channelization improvements to be funded and constructed under Urban Systems Programs. In view of the Environmental Protection Agency's Policy and the new Residential Parking programs for the City of Boston, the department must increase its enforcement branch to enforce parking regulations in many new areas of the City. PROGRAM SUMMARY

DEPARTMENT	PROGRAM	FUND	ACCOUNT NO.
Traffic and Parking	II Traffic Movement & Control	All	1-02-51

PROGRAM GOALS

The sign section maintains approximately 95,000 signs and installs approximately 10,000 new signs yearly to comply with rules and regulations adopted by the department as well as painting approximately 23,000 linear feet of curb loading zones.

The signal section maintains approximately 660 signalized intersections throughout the city. This section not only repairs and replaces damaged equipment such as controllers, signal posts, and signal heads but also installs signal equipment and cable at new locations. This section supplies signal services on a 24-hour basis. The signal section is now responsible for the proper operation and maintenance of the newly installed computerized signal system on Massachusetts Avenue consisting of 18 signal locations and 120 vehicle loop detectors.

DESCRIPTION OF OPERATIONS

The primary responsibility is safety and to facilitate and improve pedestrian and vehicular mobility through signing and signalization.

PLANS FOR MORE EFFECTIVE SERVICE DELIVERY

The signal division must install new signals and update all signalized intersections to meet the National Code Standards. Each intersection will be standard designed and updated to meet correct standards providing for greater pedestrian and vehicle safety and control. The Department has embarked on a program of converting all crosswalks from a conventional type to a zebra type which has proved extremely effective at locations that have already been striped in this manner.

PROGRAM SUMMARY

DEPARTMENT	PROGRAM	FUND	ACCOUNT NO.
TRAFFIC AND PARKING	TRAFFIC REGULATION AND ENFORCEMENT	ALL	1-02-51

PROGRAM GOALS

Program III is responsible for the regulation and enforcement of parking activities. Its primary purpose is to regulate an availability of existing curb parking spaces through the enforcement of existing laws and ordinances. It consists of two sections: Tagging and meter maintenance. Each of those sections performs its specific tasks in order to improve traffic flow by eliminating illegal and hazardous parking conditions and to carry out E.P.A. and residential parking regulations.

DESCRIPTION OF OPERATIONS

To prevent traffic congestion through enforcement of existing laws and ordinances and to regulate on-street parking availability to better serve all users.

PLANS FOR MORE EFFECTIVE SERVICE DELIVERY

Dual meter mounts are being installed to help cut back the expense of multi-pole installations and meter collection time. The traffic enforcement division will expand to give service to the areas requesting through Little City Halls, ticketing of illegally parked vehicles and to cover the city's commitment of enforcement of the E.P.A. regulations.

DEPARTMENT SUMMARY

PARKS AND RECREATION	GENERAL REVENUE	1-11-41
DEPARTMENT GOALS	EXPLANATION OF CHANGE IN BUDGET	
<p>The Parks and Recreation Department is responsible for the development and operation of a park and recreation system for the residents of the City of Boston. In addition to the physical facilities which the department operates, it develops a broad range of programs for all age groups in the City's neighborhoods.</p> <p>The departments' goals for FY-80 will be directed toward the continued enhancement of our Park System, especially the "Emerald Necklace", which we consider to be a vital element in the quality of life in Boston.</p> <p>We will continue to provide recreational programming for adults and children in athletics, arts, crafts, and physical education techniques.</p> <p>We will continue to strive for clean parks, a healthy environment and wholesome and meaningful activities for our residents.</p> <p>Our eventual goal is to include every resident of Boston who desires to participate in recreational programs.</p>	<p>Increase in Personal Services is due to a full funding of all temporary positions offset by reduction in permanent employees. 47,100</p> <p>Increase in Contractual Services is due almost exclusively to the need for funding of rubbish removal item due to the imminent closing of the Garden St. Gym. 150,000</p> <p>Contractual Services item increase is a reflection of inflationary rises. 25,400</p> <p>The increase in Communications cost is offset due to a decrease for transportation needs. 1,500</p> <p>In the Supplies and Materials group there are decreases in all items except heating supplies which is a reflection of this year's expenditure level (43,775)</p> <p>Current Charges and Obligations decrease is attributed to experience levels of water and sewer utilization. (20,000)</p> <p>Decrease in Structures and Improvements is a reflection of the fact that work that was contracted in 1981 was done in this year. (68,000)</p>

PROGRAM SUMMARY

DEPARTMENT	PROGRAM 2	FUND	ACCOUNT NO.
HEALTH & HOSPITALS	In-Patient Services	General Revenue	1-06-11 Main

PROGRAM GOALS

The Boston City Hospital Medical and Dental Services have three functions: outstanding patient care, staff education and advancement of medical knowledge. Of these, the primary is the care of the patient to which all other functions must be adjusted. Fortunately, there is no conflict, rather teaching and research strengthen patient care.

One of the strengths of Boston City Hospital as a patient care facility and a training center has always been the strength, enthusiasm and responsibility of our house staff. However, increasing efforts have been made to involve attending staff on a personal basis in responsibility for patient care. It is intended to provide direct involvement by senior physicians in the care of patients at a supervisory and consulting level.

DESCRIPTION OF OPERATIONS

As noted above, the goals of the Boston City Hospital In-Patient Service are: excellence in patient care staff education and advancement of medical knowledge. The BCH Medical and Dental Services are made up of highly trained specialists in all of the subspecialty areas of internal medicine, surgery, pediatrics, obstetrics-gynecology, radiology, pathology, etc. These individuals are able to provide the excellence in patient care that is needed in this modern day of highly sophisticated medicine. The specific services include availability of house staff and staff coverage on all services for patients with a level of critical illness. These services too numerous to list in this brief space, include acute and general care throughout the hospital, intensive care units in surgery and medicine, coronary care units and all ancillary services.

PLANS FOR MORE EFFECTIVE SERVICE DELIVERY

In order to deliver more effective service, plans are underway to upgrade a variety of activities on the pediatric, medical and surgical services, including Surgical I.C.U's patient waiting areas, etc.

PROGRAM SUMMARY

DEPARTMENT	PROGRAM 10	FUND	ACCOUNT NO.
HEALTH AND HOSPITALS	ALCOHOL AND DRUG ADDITION	GENERAL REVENUE	LONG ISLAND 1-06-31

PROGRAM GOALS

Provide a supportive post-detoxification service in a residential setting for alcoholics.

DESCRIPTION OF OPERATIONS

The alcohol rehab unit is housed in the Tobin Building, and comprises 114 beds. Counselling and nursing services are provided. Clients are discharged to Mattapan half-way and to area half-way houses for intensive counselling and follow up.

PLANS FOR MORE EFFECTIVE SERVICE DELIVERY

The Tobin building is in drastic need of renovations to bring it into compliance with codes applicable to nursing homes, in order for the service to be reimbursable at levels in true proportion to costs, as well as to provide a more aesthetic client environment. Funding will be sought for this purpose.

DEPARTMENT Workmen's Compensation	FUND General Revenue	ACCOUNT NO. 1 13 42
DEPARTMENT GOALS The Workmen's Compensation is the self insurance segment of the City of Boston for employees of the City. Under the laws of the Commonwealth of Massachusetts all employees must be so insured including municipalities. Our goal is to provide the necessary workmen's compensation benefits to City of Boston employees, as required by Statute in the most efficient and inexpensive manner for the taxpayer.	EXPLANATION OF CHANGE IN BUDGET The increase is a result of changes in the law relating to Workmen's Compensation and increased cost of medical service.

Registry of Deeds	General Revenue	4-C1-65
DEPARTMENT GOALS	EXPLANATION OF CHANGE IN BUDGET	
<p>The current goal of the Suffolk County Registry of Deeds is to provide a more efficient and modernized system of keeping land records for public use.</p> <p>The Registry of Deeds for Suffolk County is responsible for the recording of all deeds, mortgages, leases, agreements and any and all instruments pertaining to real estate in and for the County of Suffolk which includes the city of Boston, Chelsea, Revere and the town of Winthrop.</p> <p>The Registered Land Division issues a new certificate of Title which is guaranteed by the Commonwealth of Massachusetts. Any and all instruments pertaining thereto are endorsed under the Assistant Recorder who is also Register of Deeds for Suffolk County.</p> <p>Records are microfilmed, enlarged and bound in loose books by contract. Films of all record books are stored for protection and a five year consolidated record is completed every five years.</p>	<p>The explanation for the increase in Miscellaneous Contractual Services is that according to M.G.T. Chapter 36 Section 15 we are required to have duplication of all our records. As of this date we are not in compliance with this statute. Our index books and engineering plot plans have not been filmed from 1629 to the present. Lost or destroyed index book would eliminate the location of book and page nos. in which the instrument is recorded. These records are in various states of disrepair due to age and public use. For the above stated reasons the cost of which is explained on Form 6 Code 29. We hereby request that these funds be included in the budget.</p> <p>Supplies and materials line item 36 are increased due to materials needed in the operation of newly installed or about to be installed data precessing equipment.</p> <p>Current charges and obligations line item 49 increased due to the monthly cost of IBM data processing equipment.</p> <p>Nominal increase in Personal Services due to basic Union agreements and ordinary step rate increments.</p>

DEPARTMENT SUMMARY

DEPARTMENT	FUND	ACCOUNT NO.
SUFFOLK COUNTY JAIL	GENERAL REVENUE	4-08-11
<p>DEPARTMENT GOALS</p> <p>To receive, detain, safekeep and care for all persons committed by the courts of Suffolk County.</p> <p>To provide the necessities of food, clothing and shelter for inmates in keeping with basic standards of decent and humane care. To provide diagnostic services to determine inmates medical and psychiatric needs and to provide necessary treatment. To provide pre-trial release such as bail reduction and community releases to based centers for offenders considered "good risks".</p> <p>Past experience indicates that there will be committed to the Suffolk County Jail in 1980-81 fiscal period some 9000 persons. The average daily population is 275 persons.</p>	<p>EXPLANATION OF CHANGE IN BUDGET</p> <p>Personal services have increased because of wage increases due to collective bargaining. Increased numbers of persons must be held in custody outside the institution (i.e., hospitals, clinics, doctors appointments, etc.). Women prisoners now housed at MCI-Framingham must be provided with transportation. These services necessitate the use of personnel on an overtime basis.</p> <p>The U. S. Court has ordered that the complete cost of the Intake Service Center and the Bail Appeal Project, formerly borne by Federal Grant, be assumed by Suffolk County.</p> <p>Contractual services have increased substantially due to the age of the building and the obsolescence of necessary equipment that must be constantly repaired to keep the physical plant in operation.</p> <p>Economic conditions and inflation have forced increases in the cost of supplies. Greater amounts of materials are used to maintain plant and equipment. Due to general deterioration, new equipment is needed in addition to replacements to keep up with demands that better and more efficient methods of operations in all divisions be implemented.</p>

DEPARTMENT GOALS

To provide maximum program efficiency and effectiveness with personnel available.

To provide for an institutional climate characterized by professional competence, objectiveness, industriousness, good order, high morale and with minimum of emotional tensions.

To provide an organizational structure capable of meeting emergency situations with the least possible difficulty and damage to the constructive phases of the program.

To maintain a system that facilitates the lines of communication for orders and information to all levels and units of organization.

To create and maintain a continuous program impact upon inmates designed to redirect their energies, ambitions, and attitudes toward acceptable standards of social living and at the same time insure a safe degree of institutional security and public protection.

To develop an organization that works harmoniously with all disciplines bringing a balanced impact on the inmates.

EXPLANATION OF CHANGE IN BUDGET

Increase in personnel services due largely to recent allocation of additional Correction Officers in 12/79. The only additional personnel are civilian staff, social workers and clerical support staff, necessary to provide support services to the inmate population.

Increase of contractual services is due to the termination of L.E.A.A. funding, thereby causing the City to assume the commitment to Pre-Release Residence in full. The thirty beds purchased for pre-release residency provide an important avenue for inmate reintegration and release of the overcrowding in the Institution.

The rather large increase in supplies and materials is due to the rapid growth in population and the soaring costs of food, fuel and other necessary materials. Stricter control of these items has been systemized, however, they are integral items to the safe and secure operation of the House of Correction.

Increase in the equipment account is due to the need to purchase two vehicles to replace vehicles that are beyond repair and to purchase a Photo. Identification system to assist in the maintaining of security within the institution.

DEPARTMENT SUMMARY

DEPARTMENT	MEDICAL EXAMINER SUFFOLK COUNTY NORTHERN DISTRICT	FUND GENERAL REVENUE	ACCOUNT NO. 4-12-31
DEPARTMENT GOALS		EXPLANATION OF CHANGE IN BUDGET	
<p>The Medical Examiner for the Northern District is responsible for the investigation of all violent and unexplained deaths. Deaths thought to be due to virulent contagious diseases. People found dead and those unattended by a physician, occurring in the Northern Section of the County, including Chelsea, Revere, Winthrop.</p> <p>He is required to conduct autopsies whenever necessary and to give expert testimony before the Grand Jury and the various Courts.</p>		<p>The increase in Personal Services is due to the fact that this department does not have a Histo-Technologist and it is extremely difficult and costly to have microscopic slides done on a contractual basis.</p> <p>No autopsy is complete without a microscopic examination, therefore, this position should be filled.</p> <p>Due to the age & poor mileage of the ambulance used by this Department, the increase in Equipment is necessary due to increasing maintenance cost of this vehicle.</p>
